

Valtech India Sustainability Council

Hello Everyone,

At Valtech, sustainability is integral to everything we do. To make a meaningful impact, we need diverse voices and fresh ideas. We're thrilled to unveil the Valtech India Sustainability Council and invite you to be a part of this exciting initiative!

What is the Sustainability Council?

The Sustainability Council is a diverse team that meets once in a quarter to review our sustainability efforts, share new ideas, and guide our future initiatives. It's a collaborative space to ensure our environmental strategies are impactful and evolving.

Chance to create an impact as a Council Member:

As a council member, you'll play a pivotal role in shaping our sustainability practices. Become a driving force in our journey towards achieving our near-term Emissions target i.e.; 50% to 55% emission reduction by 2030 and run impactful campaigns that drive real change. Your insights and ideas will help us create a greener future and enhance our environmental stewardship.

For more information on our targets, selection & details [click here](#)

For any further queries reach out to our Sustainability Champions:
Supritha Amin (supritha.amin@valtech.com) / Tushar Mishra (tushar.mishra@valtech.com)

Best Regards,
Team Sustainability
